And Costa

And Costa's main aim is to create lighting objects with a contemporary and unobtrusive design, according to an ethic of maximum respect for the valuable skills and craftsmanship, beyond the broad market serial production.

Acolyte

Since its inception in 1992, Acolyte's focus has been on advancing the capabilities of LED lighting technology. Over the years, Acolyte has introduced a number of innovative technologies, providing specifiers with the tools they need for today's lighting design challenges. Headquartered in the heart of New York City, Acolyte serves a worldwide customer base with a production and assembly facility in New Jersey and a state-of-the-art manufacturing facility in Shenzhen, China.

American Linear Lighting

American Linear Lighting, a new lighting brand focused on the bridging the gap between Architectural Appeal and Affordability. ALL's family of LED Luminaires, are designed to provide a high value solution to enhance the visual quality of any interior space. These high quality products are made in the USA and come with a 10-year standard warranty.

Ango

Working at the intersection between design, materials development and innovative production processes, all of the light diffuser materials we work with has its own character and is either a "found" natural one, or a composite/natural material developed by experimentation. We observe and investigate what's possible with sometimes accidental or unpredicted outcomes. The whole low impact/low energy intensive process of how we create our designs also represents our view of how enlightened, environmentally responsible 21st century design and production can be. The energy, purity and truthfulness of light is our starting point, creating design pieces with love that we hope will fulfill your space with light energy.

Atlantic Lighting

Atlantic Lighting is a family owned and operated manufacturer of specification grade lighting fixtures. Located in Fall River, Massachusetts all products are produced in-house. The company is run by the hands-on owner and founder, Gabe Estrela. Gabe is an industry veteran who started his career with Lightolier and then ran multiple successful start-up lighting companies before founding Atlantic Lighting. Bob Morton is Vice President. He started his career with GE Lighting and served as a General Manager of a global manufacturing operation before joining Atlantic Lighting in 2008. From our growing Engineering team, our well-established Customer Service team, Sales Support, Product Line Management and of course our Production operation - Atlantic Lighting is focused on serving the customer, building a quality product and shipping faster than anyone else.

## Line Card

Audacy

Designed, tested, and proven to cut your lighting energy costs up to 50%, with quick installation that gets you up and running 85% faster than traditional wired systems – plus Audacy System devices have up to 25 years of maintenance-free battery life.

Manage employee access. Control lights with our app or onsite switches. Gather energy savings information through our Consumption Reports. Or conveniently link to your building's automation system (BAS). Together, these components ensure 24/7 custom control of your environment. The Audacy System is designed to make installation quick and changing layouts simple. You can customize your space and adjust fixtures, components and settings in minutes instead of hours, days instead of weeks – so as your company changes and grows, your lighting can too.

Auroralight

From California to Macau, our reputation for durability, performance, and innovation distinguishes us as a true leader in the landscape lighting industry. You simply won't find a more robust collection of outdoor lighting fixtures and accessories. Every product featured here is crafted with pride in our Carlsbad, California factory and designed to exceed your highest expectations for quality and style. So when we say we offer the world's finest solid copper landscape lighting, even our most discriminating customers know they can count on it.

AV Poles

AV Poles and Lighting is a leading manufacturer of commercial and industrial grade poles, brackets, and bases for the outdoor lighting industry. With a combined 60 years experience in manufacturing, our knowledgeable staff offers the latest design solutions for any project and/or special application needs. Whether it is steel or aluminum, contemporary or traditional, new or custom fabrication, AV Poles and Lighting has a product for every requirement.

B.E.G. Controls

Through German engineering and high corporate standards, the company is renowned for its high quality, innovative products and focus on customer satisfaction. Beyond traditional low voltage and high voltage sensors, B.E.G. is continuing to innovate with the development and production of detection products that communicate using open and standard building automation protocols (ex. Dali, Lon, Z-Wave, etc.) for integration into lighting control and building management systems.

C-Lite

C-Lite's mission is to provide high performance, go-to LED lighting at incredible value. Contractors have enough to worry about, and C-Lite products make lighting projects one less hurdle in a day full of them. Cree won't put their name on just any box. Engineered to deliver great energy savings and powerful performance, C-Lite LED Lighting by Cree is backed by a great warranty and Cree's world-class live customer support.

Cree

Cree is committed to providing the best solutions on the market. Offering products that are inspired by customers' needs and perfected by the knowledge and expertise Cree brings to the lighting industry. Cree recognizes the importance of beautiful, energy-efficient lighting and aspires to improve every business with uncompromising performance and payback.

Line Card

David Trubridge

David Trubridge is a visionary. Unlike most of us he can translate those visions into something functional. David's sculptural wooden furniture and lighting is a new world mix of old world skills and craftsmanship, sustainability of materials and purity combined with some high-tech genius. All of David's pieces are immediately evident as to their purpose, but within the seeming economy of material and fluid shapes resides their true functionality. David's Coral and Floral Lamp series combines repeat patterned CNC cut plywood with a hint of Escher to produce a geometrically pleasing form, both pure in design and practical in purpose.

Delviro Energy

Delviro Energy is Canada's leading manufacturer and supplier of Commercial, Industrial, Multi-Residential, and Architectural LED Lighting. From Electronic and Mechanical Design, Circuit Board Build, Metal Fabrication, Assembly to Finished Luminaire. Delviro's LED fixtures perform in the top 10% of the industry in terms of *Efficacy, CRI, L90-L70, and Warranty.*

e:Cue

e:cue is the controls brand from the OSRAM Group that brings the Traxon line of lighting products to life. The joint network of highly innovative luminaires, control systems and state-of-the-art control programs creates unique synergies between lighting hardware and software – ready today, fit for tomorrow.

General Structures

General Structures has been providing the lighting industry with exceptional service since 1988 — dedicating themselves to delivering the highest levels of design, fabrication, finishing, and packaging of high-quality steel and aluminum poles.

Ghisamestieri

With origins dating back to 1863, Ghisamestieri has a rich history in providing outdoor illumination to some of Europe's most enduring cities. Today, Ghisamestieri offers a "Total Lighting Solution": from historical fixtures to those of contemporary design at a surprisingly affordable price.

Hush

Hush is ideal for aiding in softening sound and reducing reverberations in commercial, hospitality and residential spaces. Hush is scientifically proven to significantly reduce reverberated noise creating an ideal and productive environment. Retrofit any space where acoustics is an issue. Hush works double duty, providing sound dampening and illumination for your space.

Lightnet

Lightnet's product range is characterized by a systematic and a convertible variety of shapes and enables high degrees of freedom for the creative lighting design. Although their product families have a different design vocabulary all are based on and overall stringent program with a consistent concept. Shapes, proportions, surfaces, optics, and color temperature are exactly coordinated so the most suitable product combination can be chosen to meet the needs of any architectural requirement.

Lumato

Lumato specializes in creating linear LED products designed to enhance the visual quality of architectural spaces. The company was founded on the belief that LED technology can and should lead to creating a product that fully recognizes and achieves the important balance between form and function. Lumato's high quality products are made in the USA.

Lumecon

Founded in 2006, Lumecon is a proud manufacturer of high quality LED lighting that's affordable, creative and built to last. Based in Detroit, Lumecon is committed to supporting their local communities by sourcing from the brightest suppliers and creating meaningful relationships with those around us. These relationships allow Lumecon to innovate LED technology, grow their people and provide world class service which exceed customer's expectations. Made in the USA.

Luminance Brands

Luminance Brands is a full spectrum lighting provider that offers complete solutions for virtually every application. Competitively priced engineered to perform, our product lines keep you at the forefront of the lighting technology for less

MAZZEGA1946

Mazzega 1946

The roots of Mazzega1946 lie in Murano, a land of master glass-workers still guarding today the age-old hand made glass working techniques. In over seventy years the company has revived and reinterpreted the Murano heritage with passion and tenacity, without betraying its origins and inviting international designers with heterogeneous expressive languages to take on those alchemies of sands, oxides and powders. Mazzega1946 caters today to a global niche market, offering lighting products that last true to the island's tradition while exploring innovating and contemporary contents.

MKS

MKS was established with a vision to provide the lighting industry with well designed, energy efficient, high end fixtures, utilizing the latest in advanced LED technology. Our fixtures are comprised using brand name components from industry leading brands including Cree and Nichia. All of our products undergo rigorous testing and quality control to bring you highest quality lighting.

Nicor

NICOR offers a comprehensive lighting product portfolio, embracing sustainable energy solutions and efficient products. The growth of NICOR has been steady and consistent in large part due to its reputation for excellent customer service and high quality standards.

RESOLUTE

Resolute

Resolute produces decorative lighting for specification. Resolute does not produce fashion products but rather devises and produces honest solutions to real conditions. Operating from a solid base of standard products, Resolute is really a collection of capabilities and an extensive kit of parts. We welcome opportunities to transform client concepts into unique, project specific lighting solutions. Resolute's capabilities and resources can be applied equally to small and large projects.

Rosco

Rosco, founded in 1910, is best known for the products it originally manufactured: color filters, gobos, scenic paints and fog products for the entertainment industry. Rosco's product offering now includes innovations such as LitePad, SoftDrop, the Cube Family and the Silk LED Lighting System. Rosco has extended its market-reach by developing a large portfolio of solutions for the architectural and film & television markets.

SEED Design

SEED Design is an innovative and creative manufacturer of modern decorative lighting products. Their design team, based in South Korean creates products that delight and embody, simplicity and elegance. SEED Design takes a no-nonsense approach in their aesthetics. Their products remain simple and straightforward yet extraordinary to the very last detail.

## Line Card

Sensorworx

SENSORWORX is a new brand of lighting controls that is redefining the occupancy sensor category. At the core of this claim is the incorporation of key innovations in three areas: Technology, Convenience, and Manufacturing Quality. Taking pride in their work and team, Sensorworx knows that quality requires attention to detail at all levels of the manufacturing process. Which is why SENSORWORX proudly manufactures lighting controls in the United States.

Sunlite

Since 1996 the Sunlite® brand has been producing a vast selection of LED, Compact Fluorescent, Incandescent, HID, Halogen, Decorative, Miniature, Specialty, Stage and Studio lamps as well as a large collection of electrical supplies and Light Fixtures. The Sunlite® brand has gained a reputation of quality and affordability and keeps up with the latest technologies to provide the most advanced products in the lighting industry.

Tato

Tato designs and manufactures high quality decorative lighting fixtures out of Malin, Italy.

Traxon

Traxon Technologies, an OSRAM business, together with its control brand, e:cue, is a global leader in solid state lighting and control systems providing complete, sustainable and intelligent lighting solutions. Traxon & e:cue transform creative visions into unforgettable lighting experiences, elevating architectural, entertainment, hospitality, and retail environments around the world.

TRuK

From Stephen Pikus Design in South Africa, the TRuK range is what we like to call "perfectly imperfect". The fixtures began life as air filters with some spending 10,000 hours, or more, under the hood of a diesel engine haul truck, digger, etc. The filters have been given new life and beauty as they are repurposed, refinished and upcycled to become light fixtures. Because of their rough beginnings, the fixtures may show small blemishes, nicks and scars. We reject some that are just too damaged but you should expect that TRuK fixtures will not be pristine. That's part of their beauty. Just like humans, the fixtures retain hints of a past life and while they may be a little flawed, we think that they are perfect just the way they are.

Ubicquia

Ubicquia offers municipalities, utilities, broadband service providers and lighting manufacturers a cost-effective and expandable platform for deploying simply connected, simply smart broadband, small cell and smart city services. Our plug and play network has the ability to turn any street light into a multi-function router that supports a growing list of services that include advanced lighting controls, public WiFi, and the connection to 3rd party sensors including air quality monitors and surveillance cameras.

**Waldmann W**  
ENGINEERS OF LIGHT

Waldmann

The Waldmann brand stands for innovative lighting solutions. The medium-sized, family-run company was founded in 1928 in Villingen-Schwenningen and is today run in the third generation as Herbert Waldmann GmbH & Co. KG by owner Gerhard Waldmann. The company develops and manufactures high quality luminaires for industrial, office, care and health applications as well as systems for medical phototherapy. The comprehensive know-how of the Waldmann lighting engineers stands for Quality Made in Germany and the continuous optimisation of productivity, safety, health and energy-saving.

**ZOOM**  
an **Atlantic Lighting** brand

Zoom Lighting

Zoom was acquired by Atlantic Lighting in 2013 and relocated to Fall River, Massachusetts in 2015 upon completion of a 30,000 square foot addition to our main facility. With considerable upgrades and investment in equipment, tooling and component inventory, Zoom has grown to be a well regarded linear brand with exceptional lead times.
